Tips for Cracking Interview

1. Do Focus on Core Subjects:
 - a. Computer Networks
 - b. Operating Systems
 - c. DBMS
 - d. OOPS
 - e. SQL Queries
2. Go through your projects very well you should know these things about your project:
 - a. Why did you made this project

- b. What's the main key feature or highlight of your project
- c. Why did you select these tech stack for this project
- d. How will you scale up your project
- e. Inspiration for this project
- f. Future Scope for this project

3. Good Communication skills

4. Be Honest if You Don't Know an Answer:

- a. Acknowledge honestly: "I'm not sure about this right now, but I'm eager to learn it as it aligns with the role's needs."
- b. Demonstrates humility and a growth mindset.

5. Explain Your Thought Process:

- a. If solving a coding problem, narrate your approach step by step. Even if the solution isn't perfect, showing logic matters more.

6. Ask Clarifying Questions:

- a. For unclear problems, seek clarification. It shows you're thoughtful and pay attention to details.

7. Practice STAR Framework for Behavioral Questions:

- a. Situation, Task, Action, Result.
- b. Use this format to explain real-life scenarios effectively.

8. Highlight Problem-Solving Skills:

- a. Share examples of challenges you faced in projects or internships and how you resolved them creatively.

9. Stay Calm Under Pressure:

- a. If stuck, take a deep breath and restart from what you know. Interviewers value how you manage stress.

10. Be Specific About Your Strengths:

- a. Avoid generic responses like "I'm hardworking." Instead, say, "I excel at breaking down complex problems into simpler steps."

11. Relate Your Answers to the Job Role:

- a. Tailor responses to show how your skills and projects align with the company's needs.

12. Showcase a Learning Mindset:

- a. Share how you've picked up new skills (e.g., "I recently learned React.js for a project") to demonstrate adaptability.

13. Engage at the End with Thoughtful Questions:

Ask about the company's tech stack, growth opportunities, or culture. It shows genuine interest in the role.
